TOILET SEATS

AND SO MUCH MORE...

IT'S TIME TO CLOSE THE LID ON LANDFILL

The Coniston Recycled and Recyclable Toilet Seat and Recycled Shower Curtain from Croydex demonstrate how everyday products can be both environmentally friendly and consumer-focused.

As part of Croydex's newly launched sustainable category, these innovative products combine thoughtful design with sustainability, addressing growing environmental concerns while meeting practical household needs.

ECO-FRIENDLY DESIGN

Both the Coniston toilet seat and shower curtain stand out for their eco-conscious material composition. Crafted from recycled materials, they divert waste from landfills and reduce reliance on virgin resources. This approach not only minimises the carbon footprint associated with raw material extraction but also supports a circular economy by re-using materials that might otherwise be discarded.

Fully recyclable, the Coniston's design ensures it can be repurposed into new products at the end of its useful life, avoiding landfill waste entirely. This cradle-to-cradle thinking aligns with global sustainability goals, encouraging consumers to make informed, mindful choices that contribute to a greener planet.

CONTENTS

Transform your bathroom with Croydex's stylish, easy-to-install accessories that deliver no-fuss, beautiful finishes. Our collection is designed for simplicity and innovation, offering everything you need to create a space that's as functional as it is stunning.

Choose from our range of Flexi-Fix™ wall-mounted accessories, Always Level mirrors and cabinets, Sit Tight™ toilet seats, and rods—all crafted with flexibility in mind to suit a variety of bathroom projects. With a range of fitting options available, you can be sure that installation is quick and easy, no matter the size or style of your space.

Our toilet seat range comes in three shapes and offers multiple fitting methods, ensuring the perfect fit for your bathroom. Plus, with a range of colours and sizes to choose from, it's easy to find the perfect match for any style.

Our wall-mounted accessories provide even more flexibility, featuring both IP and standard fittings for effortless installation. The mirrors and cabinets offer a range of mounting options, from recess to surface, and come with the single-person, hassle-free Flexi-Fix™ bracket. Whether you need a single or double-door cabinet, we have the right size to suit both large and small spaces.

Upgrade your shower experience with Croydex's showering range, which includes a variety of full shower sets, shower heads, pressures, and functions. Our Precision Pressure Boost shower heads are proven to enhance your showering experience while ensuring simple, quick installation.

From renovation to installation, Croydex provides everything you need to make your bathroom projects effortless, stylish, and hassle-free. Choose Croydex for a bathroom that looks great and is easy to set up!

CROYDEX INNOVATIONS

PEEL

Peel off the protective film from the grip pad.

FIX

Position the seat, press the hinges in place and tighten bolts for a sturdy no slip installation.

CLIP

Clip the hinge covers in position and you are ready to go, it couldn't be simpler!

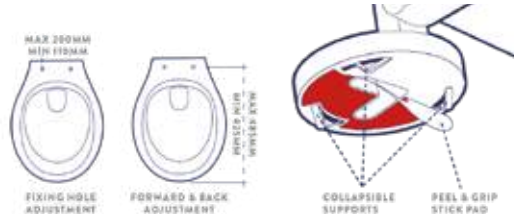

SCAN TO SEE OUR EASY INSTALLATION TOILET SEATS

The wide range of adjustability ensures the hinges will always align with the holes in your toilet pan and the seat can also be installed from above or below the pan so it "always fits".

Collapsible supports hold the hinges off the toilet pan while you align the seat. Once pressure is applied, the adhesive pads beneath the hinges grip the toilet pan so it "never slips".

RE-FIX

Use existing holes for new accessories.

SCREW OR GLUE

Apply Flexi-Fix™ adhesive to the 'X' plate.

MOUNT

Fix accessory in place.

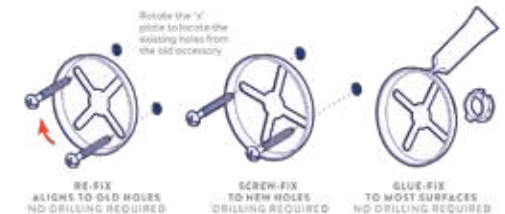

SCAN TO SEE OUR EASY INSTALLATION WALL MOUNTED ACCESSORIES

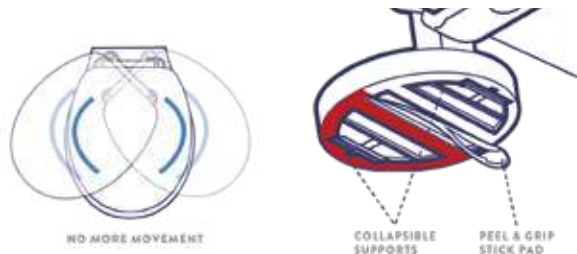

The Flexi-Fix™ range of wall mounted products feature a unique 'X' plate which can either be fitted using existing fixing holes or screwed to new ones.

Alternatively, the patented bracket can be glued to most surfaces, including uneven walls or shiny tiles, eliminating the need for drilling completely. With three ways to fix, there's an option for everyone.

Collapsible supports hold the hinges away from the pan while you align the seat. Once pressure is applied, pads beneath the hinges grip the toilet pan so there is "no more movement".

PEEL

Assemble the hinge with the bolt in place and peel off the protective film from the grip pad.

ALIGN

Align the hinges to the toilet pan and push hinges in place.

FIX

Screw the seat to the toilet pan using the supplied fixings.

The self adhesive fixing plate means no tools or fixings are required, simply stick the fixing plate to a clean stable surface.

Hang your accessory and secure in place using the screw on cover cap, your product is now ready to use.

PEEL

Peel off the protective film from the self adhesive fixing plate.

STICK

Apply the self adhesive fixing plate in your chosen position (ensure it is a clean, stable surface). Leave for 24 hours for adhesive to cure.

MOUNT

Fix accessory in place.

SCAN TO SEE OUR EASY INSTALLATION WALL MOUNTED ACCESSORIES

CROYDEX INNOVATIONS

FIX
Fix the bracket to the wall and adjust the level.

LEVEL
Hang the cabinet onto the bracket.

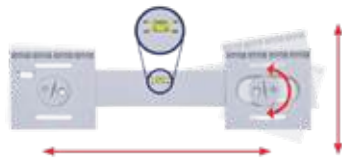

LOCK
Lock the cabinet securely in place using the locking button

SCAN TO SEE EASY INSTALLATION CABINETS AND MIRRORS

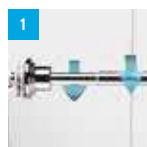

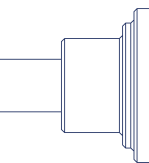

Fixing mirrors and cabinets doesn't have to be a two person job. Croydex's Flexi-Fix™ system avoids the awkwardness of having to struggle to measure distances and mark screw holes in one hand whilst supporting a heavy bathroom item in the other. Bathroom furniture in the Flexi-Fix™ range can be fitted in just four easy steps. Simply attach the brackets to the wall, adjust using the built-in spirit level, hang the product and lock securely in place. *For larger triple door cabinets a single person installation may not be advisable.

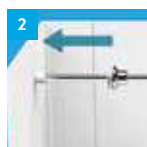

No cutting, no drilling, no screwing. Just a simple, quick and easy installation. Simply peel and fix.

SCAN TO SEE OUR EASY INSTALLATION PREMIUM TELESCOPIC RODS

Rotate to unlock

Extend to the walls

Rotate to lock and tension

Peel off adhesive backing film

Press the wall brackets against the wall

Rotate to apply pressure to activate the adhesive tape

Snap the decorative covers over the pressure plate

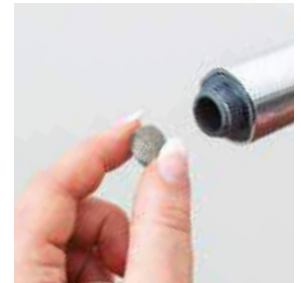

UNSCREW
Unscrew your existing shower head from the shower hose and discard old washer. Clean threads on shower hose.

INSERT
Fully insert the Aqua Air™ cartridge and position the washer supplied in the connector of your shower hose. Then attach it to the shower head, do not over-tighten.

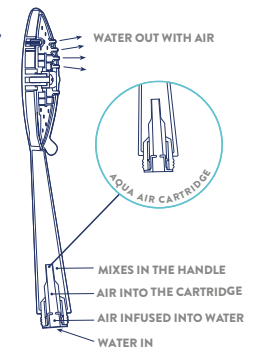

CLEAN
To retain best quality finish, clean product regularly with a soft damp cloth. Do not use abrasive or chemical cleaners, as these may damage the product.

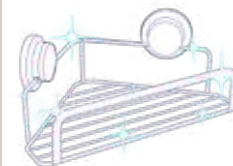

Aqua Air™ products produce a bigger and softer water droplet to enhance and improve your showering sensation and pleasure, whilst also reducing your water consumption without the need for a water saving device.

How Aqua Air™ works is simple – water flowing through the shower head draws in air, which is then mixed with the water. This creates bigger, softer, aerated water droplets within a volumised shower spray, which enhance the showering sensation and provide a high quality showering experience with lower water consumption.

RUST FREE

Croydex has developed a solution for accessories that promises to make rust stains a thing of the past. The high quality plating and material used means we can offer rust free warranties on a variety of wire-ware, giving consumers a real confidence and reliability in the product. Furthermore, all our rust free wire-ware comes with either a five year, ten year or lifetime guarantee.

RODS & RAILS

Manufactured to the highest quality, Croydex rods and rails come in a range of styles and offer several choices to complete the look of your bathroom.

TELESCOPIC RODS

Simple to fit without the need to screw*, the spring-loaded telescopic tension shower curtain rods allow you to easily fit and remove the product, while adjusting to your desired length and position. With a simple slide and twist action to extend and the unique screw action of the end buffer you can ensure an easy and secure installation.

MODULAR RODS

With four ways to fit, these shower curtain rods are sure to suit any shower. Being extremely versatile they can be fitted in either U-Shaped, L-Shaped, Large L-Shaped or Straight configurations to suit your bathroom requirements. Use as the standard length or cut to size, to suit requirements. Whether you have an awkwardly shaped shower, or are just tired of rails falling, this durable system is perfect for you.

PROFESSIONAL RODS

These heavy duty stainless steel rods are perfect for domestic and commercial applications. Durable, with metal fixing brackets, they provide a sturdy solution for showering.

PROFESSIONAL RAILS

This durable yet lightweight rail system is the perfect option for any shower. Featuring a smooth-running internal hook and glider system and supplied with twelve hooks for one shower curtain, these rails are available in a range of sizes and configurations. With some options including ceiling supports, this robust design and contemporary finish is sure to suit any bathroom.

MADE TO MEASURE RAILS

Select from our range of made-to-measure rails and rail accessories to create a bespoke rail for your bathroom. Simply choose either the Profile 400 or 800 colour options, pick your configuration, provide the required measurements and let us do the rest. Rails are supplied with twelve hooks and gliders for one shower curtain.

*Excluding L-shaped rods

Will not fall down or move once installed*

*Based on 15kg

No cutting, no drilling, no screwing, just a simple, quick and easy installation

Tested up to 15kg load capacity*

*Tested to BS 4875-7/ISO 7170 for 24 hours. 25 times longer than the Standard requirement. Full bond strength is achieved after 24 hours.

SHOWER CURTAINS

Keeping your bathroom looking fresh and clean while also adding a touch of character is easy with Croydex's range of shower curtains. Croydex is a leading supplier in the UK and provides a range of designs, all made to the highest quality.

Our comprehensive range of shower curtains includes products made from a variety of materials. As well as offering a selection of style choices, the chosen material can also affect how a curtain performs and how it should be cared for. Below are some points for consideration that will help you choose the perfect curtain for your bathroom.

VINYL SHOWER CURTAINS

Vinyl shower curtains are 100% waterproof. The sides and bottom of all our vinyl curtains are cut rather than sewn and the eyelets are welded. These curtains can be wiped clean with a damp cloth and hung out to dry. They cannot be machine washed, dry-cleaned, tumble dried or ironed.

Our range of vinyl curtains are made from PVC (polyvinyl chloride). PVC is a fully waterproof material which is both soft and strong. Designs featuring a clear background are generally printed on a PVC base sheet as this effect can easily be achieved using this material.

TEXTILE SHOWER CURTAINS

Textile shower curtains are water repellent. The 100% polyester fabric is made water repellent by the addition of an acrylic coating that we call Proseal®. The sides, top and bottom of our textile curtains are neatly hemmed and the bottom hem includes a lead-free, non-toxic weight to ensure that the curtain hangs straight and does not cling to the user when wet. The eyelets are reinforced with a corrosion-resistant metal to give a smart finish. All textile curtains can be machine washed at 40°C and pressed with a cool iron.

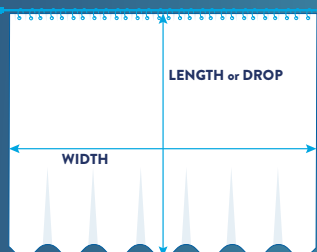

PLAIN AND PATTERNED FABRIC

With their water repellent Proseal® coating, all plain and printed shower curtains from Croydex are 100% polyester and create an effective water repellent barrier in the bath or shower. A made-to-measure service is available on selected plain curtains providing a variety of sizes made to order. *Made to measure textile curtains may use welded eyelets instead of metal eyelets.

HOOK 'N' HANG

Our hookless shower curtains are made from 100% polyester fabric and come complete with twelve heavy duty split plastic eyelets for fast and easy installation, so there is no need to buy separate shower curtain hooks.

SHOWER CURTAINS DIMENSIONS

PRODUCTS MARKED WITH THESE ICONS INCLUDE THIS FEATURE.

All textile shower curtains can be machine washed at 40°C and pressed with a cool iron.

SHOWER SPRAY PATTERNS

SENSATIONAL WATER SAVING

Aqua Air™ products produce a bigger and softer water droplet to enhance and improve your showering sensation and pleasure, whilst also reducing your water consumption without the need for a water saving device.

How Aqua Air™ works is simple – water flowing through the shower head draws in air, which is then mixed with the water. This creates bigger, softer, aerated water droplets within a volumised shower spray, which enhance the showering sensation and provide a high quality showering experience with lower water consumption.

WHAT IS THE WATER LABEL?

The Water Label enables customers across the UK and Europe to easily compare the amount of water different products use and make informed decisions that will save them water and money.

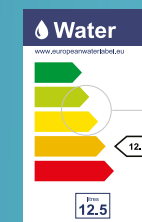

Major DIY retailers, builders and plumbers' merchants and manufacturers of bathroom products are committed to using the Water Label for all bathroom fittings.

Thousands of bathroom products are registered with the European Water Label. Once registered, products are given a Water Label rating based on the manufacturers' product information.

You can look online to search for products already registered with the Water Label at: www.europeanwaterlabel.eu and click on 'Find a Product'.

HOW THE LABEL WORKS

The Water Label shows the amount of water the product uses. Products are grouped into colour-coded performance bands depending on how much water they use. The smaller the arrow, the more efficient the product, with green being the most efficient.

L/Min – Type of measurement

Performance bands

Actual capacity or performance of the manufacturers product

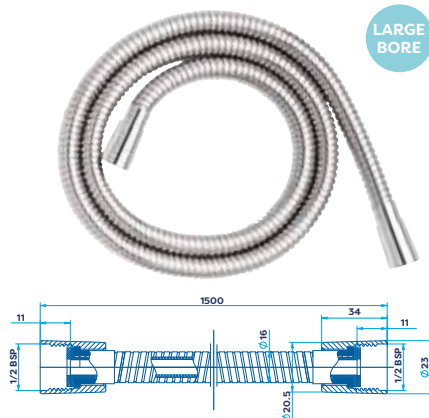

LOOK OUT
FOR THE WATER
LABEL ON OUR
PRODUCTS

Your customers will be familiar with the style of the labelling as it's similar to energy labelling used on white goods (like fridges and washing machines) and electronic products.

SENSATIONAL WATER SAVING

Uninspiring and expensive showers are a thing of the past with the Aqua Air™ showering products from Croydex.

Aqua Air™ products produce a bigger and softer water droplet to enhance and improve your showering sensation and pleasure, whilst also reducing your water consumption with its unique water saving device.

How Aqua Air™ works is simple – water flowing through the shower head draws in air, which is then mixed with the water. This creates an enhanced, volumised showering sensation and lowers water consumption considerably.

In fact, Aqua Air™ shower handsets can save up to 50% water when compared to similar standard shower handsets.

THE WATER LABEL

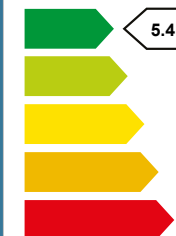

The Water Label is a voluntary scheme and is open to all companies who manufacture or sell product in the UK and Europe that meets the criteria for water efficiency products as defined by technical experts within the bathroom industry.

All Aqua Air™ shower heads are listed with the European Water Label Scheme. Your guarantee of water efficient transparency.

Water

www.europeanwaterlabel.eu

EASY INSTALLATION

Unscrew your existing shower head from the shower hose and discard old washer. Clean threads on shower hose.

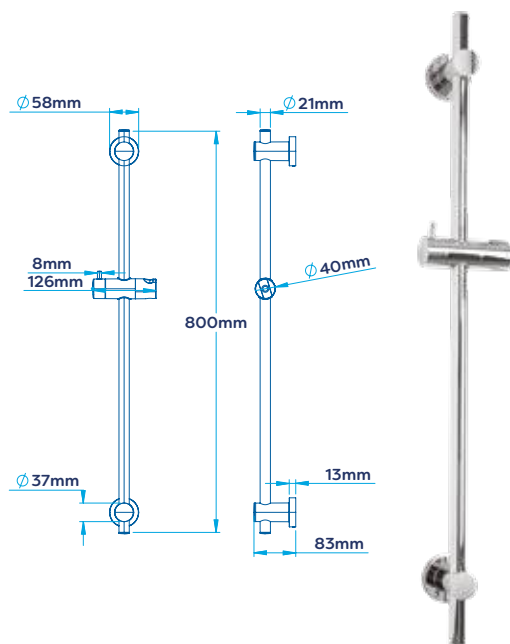

Fully insert the Aqua Air™ cartridge and position the washer supplied in the connector of your shower hose and attach it to the shower head. Do not over-tighten.

To retain the best quality finish, clean product regularly with a soft damp cloth. Do not use abrasive or chemical cleaners, as these may damage the product.

FLEXI-FIX™ RISER RAIL

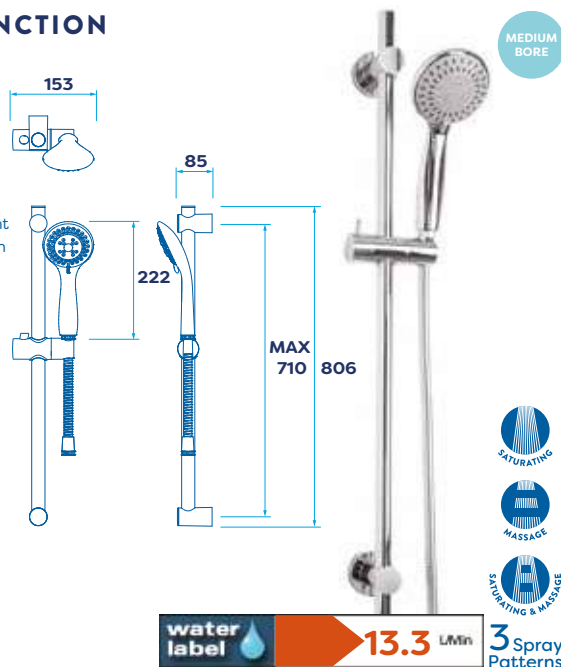

- Flexi-Fix™ brackets can be fixed using existing screw holes (up to 720mm apart) or glued, avoiding drilling completely

TOILET SEATS

Hygiene is just as important as appearance for Croydex which is why our range of anti-bacterial treated toilet seats are sure to make your bathroom a safer place. With a range of colours and finishes available there's something for every bathroom.

THE SHAPES OF OUR TOILET SEATS

FEATURES KEY

Products marked with these icons include these features.

No tools required for fixing.

Allows the seat to be removed easily for cleaning.

'Double-Fixed' toilet seat, designed to prevent seat movement.

Fixings allow you to fix your toilet seat from either above or below for ease of installation.

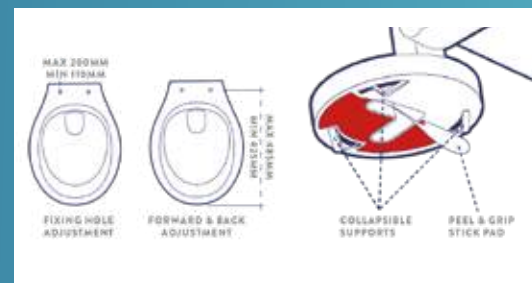

Always fits, never slips toilet seat, designed for easy installation.

Soft close hinges prevent the seat from slamming closed.

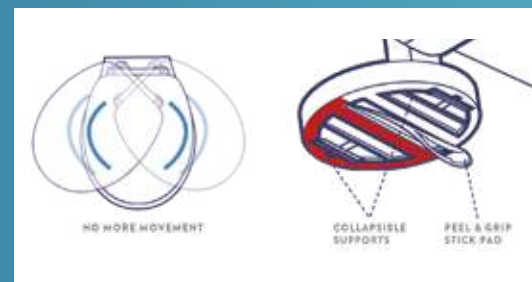

Anti-bacterial - a biocidal treatment that controls or prevents the growth of harmful bacteria, fungi and mould on the surface of the treated components, and is even effective against human coronavirus. It prolongs the life of the product, reduces staining and odours and makes the product more hygienic. Normal cleaning regimes are still required. All biocides used in our products are approved for use by the UK Health & Safety Executive (HSE) and the European Chemical Agency (ECHA).

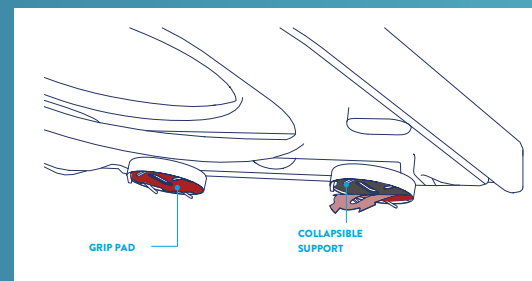

FLEXI-FIX™ HINGE

Installs with ease across a huge range of fixing centres, has a wide 'field of adjustment' range backwards and forwards to give a perfect fit to the toilet. Because of the ability to adjust it helps to position the seat so it stays upright without closing by itself. VHB technology ensures the seat stays fixed in position and does not come loose.

SIT TIGHT™ HINGE

Using the same VHB technology as the Flexi-Fix™ hinge Sit Tight™ hinges fits toilets that comply with the European and British standards.

STICK 'N' LOCK™ HINGE

Using the same VHB technology as the Flexi-Fix™ hinge Sit Tight™ hinges fits toilets that comply with the European and British standards. VHB technology ensures the seat stays fixed in position.

THERMOPLASTIC (POLYPROPYLENE)

An injection moulded material, generally polypropylene. Warm to the touch, flexible, easy to clean, high gloss finish. Resistant to chemicals. Shatter resistant at normal temperatures.

THERMOSET (UREA)

A plastic material, generally Urea that is moulded under high pressure compression conditions. A hard material with scratch resistant properties it is durable and rigid. Resistant to chemicals UREA has a high degree of natural Anti-microbial properties. Ours is further enhanced with an Anti-bacterial material that is added into the compound before moulding.

MOULDED WOOD

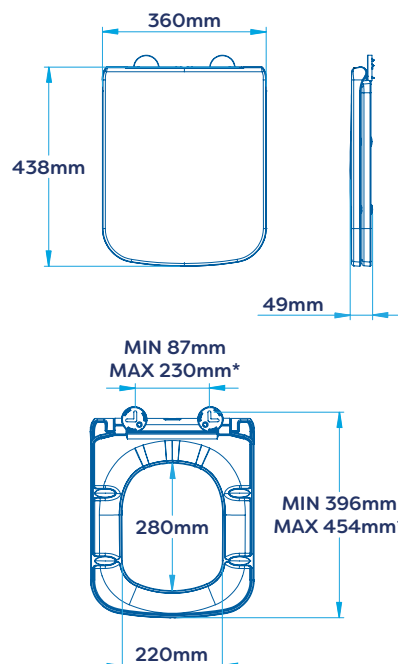

A high density heavy material formed from small wood particles similar to flour in constituency. This material is bonded with resins and compression moulded under high pressure conditions to give a strong and stable product. Finishes are either painted or foil wrapped with a PVC foil to represent wooden and stone finishes. All wooden materials are FSC certified. An Anti-Bacterial treatment is added to the surface coating.

SOLID WOOD

Made from pieces of real solid wood with the grains in different directions to give added strength and reduce distortion. These seats have the warmth of real wood in a range of finishes and are FSC certified. An Anti-bacterial treatment is added to the surface coating.

LEVEN SQUARE TOILET SEAT

- Modern square shaped design
- Made from hard wearing thermoset plastic
- Durable nylon & chrome plated ABS anti rust hinges

- Contoured D shape to suit many popular designs of toilets

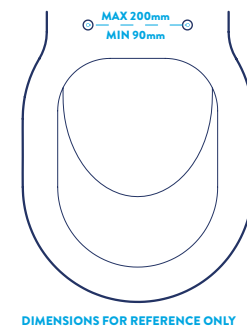

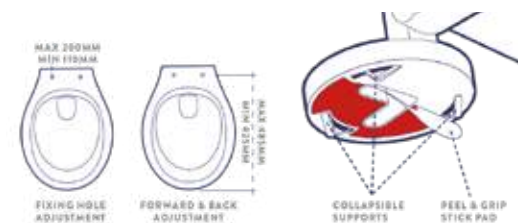

CODE	FINISH
WL602822H	White

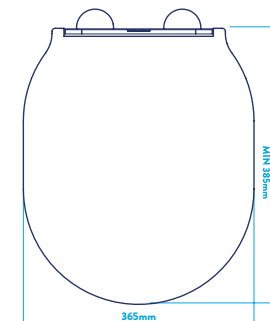

The wide range of adjustability ensures the hinges will always align with the holes in your toilet pan and the seat can also be installed from above or below the pan so it "always fits".

Collapsible supports hold the hinges off the toilet pan while you align the seat. Once pressure is applied, the adhesive pads beneath the hinges grip the toilet pan so it "never slips".

WALL MOUNTED ACCESSORIES

Wall mounted accessories are essential for keeping your bathroom clutter free. Our stylish range offers a variety of fixing methods and some products can even be installed without drilling through tiles.

THREE WAYS TO FIX

The Flexi-Fix™ range of wall mounted products feature a unique 'X' plate which can either be fitted using existing fixing holes or screwed to new ones.

Alternatively, the patented bracket can be glued to most surfaces, including uneven walls or shiny tiles, eliminating the need for drilling completely. With three ways to fix, there's an option for everyone.

1. RE-FIX

Use existing holes for new accessories.

2. SCREW OR GLUE

Apply Flexi-Fix™ adhesive to the 'X' plate.

3. MOUNT

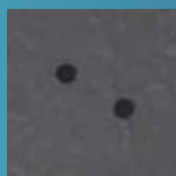

Fix accessory in place.

**KEEP LOOKING
YOUR BEST
WITH OUR
MIRRORS
& CABINETS**
PAGE 115

RE-FIX
Aligns to old holes

Remove old accessory

Use existing holes for new accessories

Fix accessory in place

SCREW-FIX
To new holes

Drill new holes - no need for accurate drilling

Screw 'X' plate to the wall

Fix accessory in place

GLUE-FIX
To most surfaces

Position the alignment guide in desired location

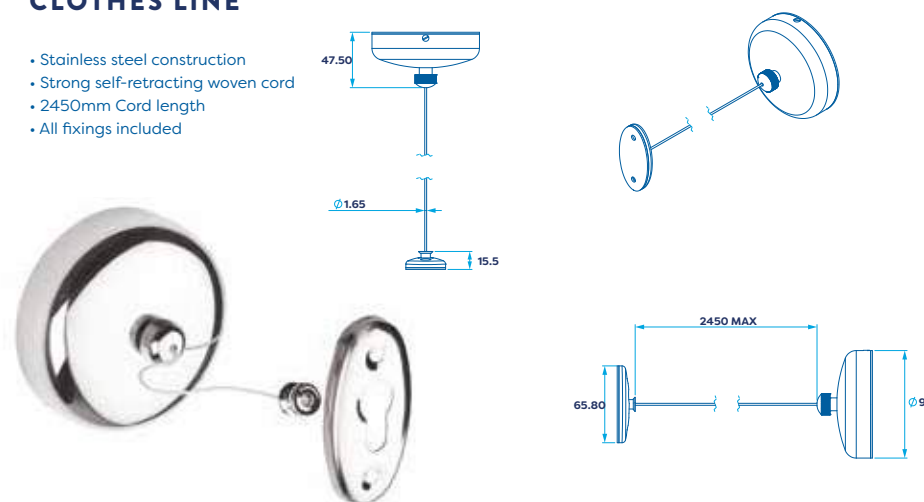

Apply Flexi-Fix™ adhesive to the 'X' plate

Fix accessory in place. Leave to cure for 24 hours before use.

METLEX

Professional Bathroom and Commercial
Washroom Accessories for the:
Care, Commercial and Hospitality industries

Professional Bathroom & Commercial Washroom Accessories for the: Care, Commercial and Hospitality industries

Quality Guaranteed

Quality and durability are integral to not only Metlex products but also the designing, manufacturing and delivery stages.

Our highly knowledgeable specification teams are always on hand to provide honest, valuable feedback and advice. All products are covered by our manufacturing guarantees to give you peace of mind in the unlikely event that there are issues with materials or the manufacturing process.

Service Condition

Service Condition 2 (Moderate) - Exposure indoors in places where condensation of moisture may occur, as in kitchens and bathrooms.

Service Condition 3 (Severe) - Service outdoors where occasional or frequent exposure to rain, dew, strong cleaners and saline solutions may occur.

As a result of the COVID 19 pandemic, hygiene standards within professional bathrooms and commercial washrooms are higher than ever. At Metlex we understand that it is a combination of the procedures in place and installed accessories that make the difference.

Not only do we offer an extensive range of washroom accessories our entire collection of products are simple to install, resilient against commercial cleaning and designed to suit all user needs.

Also ideal for sanitisation stations, our products can be used in any location to provide instant hand hygiene for public and commercial settings.

To discuss any options please contact our sales team.

Product Key

12 YRS | MANUFACTURING GUARANTEE

Number of years guaranteed

TAMPER RESISTANT

Designed to protect against vandalism

UP TO 50% | WATER SAVING

Uses water saving technology to reduce consumption

X PLATE

Unique 'X' plate system that can be attached to existing or new holes

Unique 'X' plate system

1. If drilling new holes, mark where you would like your bracket to fit

2. Use existing or new holes to attach the 'X' plate bracket

3. Mount the accessory onto the 'X' plate and fix with provided grub screw

Fit to new or existing screw holes in minutes. The innovative 'X' plate design allows a range of adjustability that makes installation quick and simple.

Fixing wall mounted accessories is simple and quick to do thanks to the 'X' plate fixing system. The 'X' plate bracket can be attached to the wall using new or existing screw holes. The accessory can then be mounted on top of the bracket and screwed into place with a grub screw. The brackets work universally across all products in the range making it easy to replace and update accessories.
