**HOMELUX[®] TILE TRIMS
PROVIDE THE FINISHING TOUCH**

YOUR GUIDE TO TILE TRIMS

WHAT DOES TILE TRIM DO?

- ✓ Caps and protects tile edges from getting chipped or damaged
- ✓ Hides the raw edges of a tile that is glazed or looks unfinished where cut
- ✓ Hides the raw edges of unglazed tiles
- ✓ Covers sharp edges of tiles

HOW DO I KNOW WHAT SIZE TILE TRIM TO USE?

First measure the thickness of the tile and add 1-2mm to this to allow for a covering of adhesive.

WHERE WOULD I USE ONE?

Tile Trims are versatile and can be used in many applications...

Part-tiled walls

Splashbacks

To separate between floor coverings

To frame around a window

External corners i.e. boxing in pipe work

PVC
TILE TRIMS

HOMELUX[®]

PVC TILE TRIMS

PVC TILE TRIMS PROVIDE A PRACTICAL,
SMOOTH AND NEAT EDGE TO YOUR TILES
IN VARIOUS PROFILES AND FINISHES

Proudly made in Great Britain, minimising environmental impact

PRODUCT CODE	DESCRIPTION	COLOUR	LENGTH
HBS701	SealaStrip	White	1.83m

SealaStrip is a rigid PVC seal for use around bath and shower trays

PROFILE

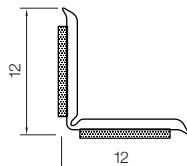

BATH TRIM SEAL

PRODUCT CODE	DESCRIPTION	COLOUR	LENGTH
HBTM100	Bath Trim	White	1.83m

Bath Trim hides the join between tiled surfaces around baths and showers. It has a unique glazed ceramic effect to complement high gloss tiles and is easily applied with its self-adhesive tape

PROFILE

FLEXIBLE BATH SEAL

PRODUCT CODE	DESCRIPTION	COLOUR	LENGTH
HFBS WH	Flexible Bath Seal	White	3.5m

Flexible Bath Seal is a self-adhesive seal to hide the join around baths and shower trays

WATERPROOF
MATTING

FACE UP

WALL
HOMELUX

HOMELUX[®]

WATERPOOF & ANTI-CRACK MATTING

WATERPOOF MATTING GIVES A 100%
GUARANTEED SEAL, PROTECTING YOUR
PROPERTY AGAINST INTRUSIVE WATER
AND MOISTURE

Waterproofing and sealing against water and moisture is the
most important element of any tiled wetroom or shower installation

WHY DO I NEED WATERPROOF MATTING?

WHAT ARE THE BENEFITS OF WATERPROOF MATTING?

- ✓ Ensures complete watertight protection, preventing the migration of vapour from the tile surface to the substrate
- ✓ Prevents costly damage to timber frames, building joints and plaster boards caused by leaks
- ✓ Prevents unsightly damp patches on the ceiling in the room below

Homelux Waterproof Matting can be used under any tile application.

- Quick and easy to apply
- Can be tiled on to instantly
- 10 year guarantee*
- Floor matting incorporates anti-crack properties for tiles
- Uniform thickness of 0.85mm with no weak points
- Joint tape, corners and pipe collars available to ensure a complete seal
- Compatible with Homelux® electric underfloor heating

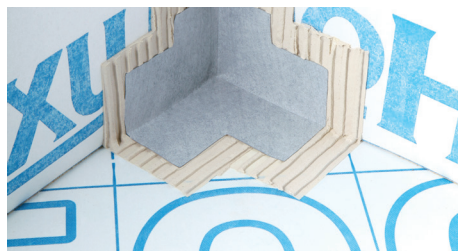

*When fitted in accordance with Homelux® instructions using Homelux accessories

ANTI-CRACK
MATTING

HOMELUX[®]

ANTI-CRACK MATTING

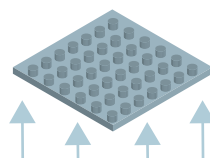

NEWLY DEVELOPED DECOUPLING
MAT WITH ADVANCED
LAMINATION TECHNOLOGY

The new problem solver for stress relief and waterproofing in professional interior construction.

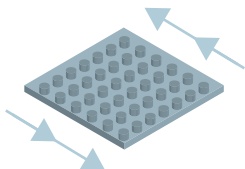

Mechanical Bonding

Bonding layers have reinforced fleece which locks into the mat, ensuring strong reliable installations.

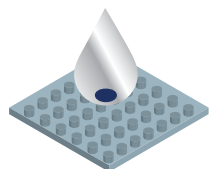

Vapour Permeable

Protects tile installation by blocking excess moisture vapour.

Decoupling Membrane

Absorbs stress and preserves the surface and integrity of the tile and grout.

Waterproofing

Protects moisture sensitive substrates. For interior and exterior use.

- ✓ Ideal for use with underfloor heating. With its unique insulating layer, water and electric underfloor heating efficiency is improved
- ✓ Absorbs substrate movement to prevent surface cracks & the de-lamination of Tile & Stone
- ✓ Double fleece & glue free bonding ensures a secure and durable anchor of the floor finish over the base substrate
- ✓ Hydrophile fleece transport moisture and lets adhesive cure fast
- ✓ Rolls out flat making it easy to lay
- ✓ Replaces 6mm backer board or a second layer of plywood under flooring installations
- ✓ Completely waterproofs underneath tiled areas when used with Homelux® joint tape
- ✓ Use with a powder based C2 flexible thin-set tile adhesive

ULTRA MAT MATTING

Anti-crack Matting

PRODUCT CODE	DESCRIPTION	LENGTH
HULMAT5	Ultra Mat Matting	5m

JOINT TAPE

Joint Tape DECOUPLING AND WATERPROOF MATTING

PRODUCT CODE	DESCRIPTION	LENGTH

Note: When laying on to wooden floors, ensure it is structurally sound and level. Check with the adhesive manufacturer's instructions regarding any priming that may be necessary.

UNDER TILE
HEATING

HOMELUX[®]

UNDERTILE HEATING

CREATE AN EVEN SPREAD OF WARMTH
THROUGHOUT TILED AREAS

One of the most cost effective heating methods, also compatible with Homelux Waterproof Matting to create a luxurious wet room which is warm underfoot

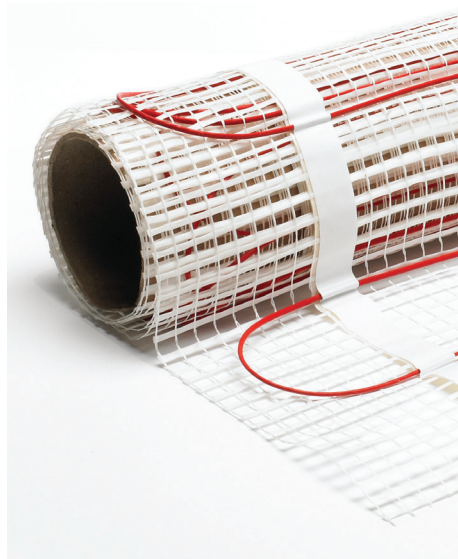

WHAT ARE THE BENEFITS OF UNDERTILE HEATING?

- Creates an even spread of comfortable warmth with no hot spots or draughts
- Cost-effective form of heating, maintenance free
- Creates space – no bulky radiators
- Helps to dry wetrooms quicker

WHY HEATWAVE UNDER TILE HEATING?

- ✓ Suitable for use under any porcelain, ceramic or natural stone tiles
- ✓ Fully adaptable, suitable for any room shape
- ✓ Quick and easy to install
- ✓ Choice of thermostats for optimum efficiency and convenience
- ✓ Up to 50% more thermally efficient when used with Heatwave Insulation Boards
- ✓ Multiple mats can be joined together
- ✓ Only one power lead to wire in to thermostat
- ✓ 10 year guarantee for heat mats*
- ✓ 2 year guarantee for thermostats*

ULTRA MAT FSDU

Our FSDUs (Free Standing Display Units) are great for small spaces and aisle ends to complement products that can be used in conjunction with each other.

A great way to have products in multiple places within the store.
